

DOORS WITHOUT COMPROMISE

# SECURE COMPOSITE DOORS

# INTRODUCTION

Here at Uniseal we offer a large range of composite doors so whether your style is traditional or more contemporary we have a door to suit you.

Our composite doors are manufactured to the highest standards and are 48mm thick which is nearly 10% thicker than most alternatives. They are manufactured with a TriSeal frame for better weatherproofing and performance with a cross-laminated Albasia Falcata timber core offering thermal efficiency and maximum security.

There's no need to worry about painting or varnishing, as all our doors are completely encapsulated within a high performance CoolSkin technology to withstand extreme temperature changes.

On top of all this performance and security our composite doors also offer a U-value of just 1.4 W/m<sup>2</sup>K making them the best on the market for thermal efficiency and ultimately helping with the rising energy bills.

Our Composite Doors come with 10 year guarantee. Contact our office to find out more

10 YEAR  
GUARANTEE

## WHY CHOOSE OUR COMPOSITE DOORS

- ✓ Over 250 colour combinations inside & out
- ✓ 48mm solid timber core
- ✓ Outstanding 1.4 W/m<sup>2</sup>K u-Value
- ✓ Highly advanced secure locking system
- ✓ Chamfered or sculptured frames
- ✓ All locks compliant to PAS-24: 2016
- ✓ ABS security cylinder as standard

Please Note: All images shown within this brochure are for illustration purposes only.

SECURITY LOCKED IN....INTRUDERS LOCKED OUT

## COMPLETE SECURITY

Our Composite doors are fitted with the very latest in auto-fire multi point lock engineering. This multi deadbolt auto-fire lock has been rigorously tested to over 50,000 cycles and is fully compliant to PAS-24 security standards. Unlike other locks on the market the mechanism automatically engages when the door is closed, with no need to lift the handle, for optimal security and to minimise movement.

### CYLINDERS YOU CAN TRUST

Our Composite Doors are all fitted with a ABS 3\* cylinder which are approved by the Police Security Association, passing with the Sold Secure Diamond grade- recognised as the highest security standard UK locks can conform to.

ABS cylinders feature advanced technology to combat against snapping, picking, drilling and bumping.

When attacked, a hidden pin within the hardened Molybdenum cam fires into action to create a barrier that would-be intruders can't get past.

**£2000**

**HOME OWNER  
GUARANTEE**

That means if an intruder breaks into your home as a result of snapping the cylinder, abs will pay £2000

\*TERMS AND CONDITIONS APPLY

### LOCK POSITIONING

#### STANDARD AUTO-FIRE LOCK

An automatic multi-point locking system featuring a four self-locking deadbolt latch to provide additional security

#### HERITAGE AUTO-FIRE LOCK

The aesthetics of a traditional rim latch positioning, but incorporates the latest high security auto-fire technology

## CERTASS

Certass was set up in 2006 and is a Competent Person Scheme that regulates the double glazing industry. Its main function is to ensure that double glazing installations follow Building Regulations and also protects the buyer's interests and installation quality.

We follow strict installation standards set out by Certass and have extent knowledge about local building regulations because of both of these your installation will be completely compliant with regulations and extremely high quality. As members of the Competent Person Scheme, we will issue you with a certificate of compliance once your installation has been complete.

# FRAME OPTIONS

CHOOSE FROM 11 COLOURS & 2 TYPES

WHITE

FOILED WHITE

CREAM

# COASTAL BLU RANGE

The Coastal range has been designed for enhanced performance and durability and are arguably the best quality on the market. The range is made from 316 marine grade stainless steel, compared to the industry-standard of 304, giving it the best long-term resistance to corrosion in coastal locations, supported by a 'best in class' lifetime guarantee.
